

Palliative Medicine Traineeship – 2018 Call for Applications **Deadline- rolling intake opens January 15, 2018**

The Division of Palliative Care, Department of Family Medicine, McMaster University invites interested family physicians to apply to our Palliative Medicine Traineeship. The Traineeship is designed to enhance the skills of practicing physicians with the intent of serving and filling a palliative care gap in their Family Practice group and local community. Our priority will be physicians who plan to continue to practice as a family physician but with added skills that will allow them to dedicate time to palliative care in primary care capacity building models, and may assist their eligibility for the CFPC CAC palliative care designation.

This is a competency based, not time based curriculum which includes a pre-admission assessment of existing competencies, then development of a customized traineeship for each trainee. The learning objectives, curricula and duration of study are determined prior to acceptance into the program. The curriculum is modeled after the current competencies of our Palliative Medicine Enhanced Skills program, and the postgraduate Family Medicine competencies for the Department of Family Medicine.

The successful candidate will be a physician in good standing with the College of Physicians and Surgeons of Ontario who is in active clinical practice in Ontario, and who has a strong demonstrated interest in Palliative Medicine. The candidate will hold (or be eligible to hold) hospital appointments in the McMaster teaching regions. Completion of the Traineeship does not in and of itself constitute approval to practice as an expert Physician in Palliative Care in the province of Ontario as such approval rests with the College of Physicians and Surgeons. Similarly it does not ensure eligibility of CFPC CAC designation, as such designation rests with the College of Family Physicians of Canada.

Costs for the Traineeship are incurred by the candidate, and contingent on the details of the customized training program created for the successful candidate. Interested candidates should forward a personalized letter of intent and expression of career goals, along with a relevant CV to Clareen Akshinthala (akshint@mcmaster.ca)

Dr. Denise Marshall, MD, CCFP (CAC-PC) FCFP
Professor, Division of Palliative Care
Department of Family Medicine
