The Department of Pediatrics at McMaster University and McMaster Children’s Hospital are seeking a full-time faculty member in the Division of Neonatology. This position offers a stimulating environment with a committed team that combines a regionalized perinatal service and internationally recognized strength in research and medical education across the complete spectrum of child health.

The successful candidate will be a clinical neonatologist with a strong research background and will also contribute significantly to divisional, departmental and educational activities. He or she will contribute significantly to the body of scholarship in Neonatology and provide leadership as a research mentor to faculty and students. The successful candidate will be appointed as the Hamilton Health Sciences Foundation-Jack Sinclair Chair, in Neonatology at McMaster University. He or she is expected to have an established clinical research record in Neonatology; demonstrated interest and change leader in the field of patient safety; and at least ten years of clinical experience as well as the successful delivery of quality improvement projects. The successful candidate will have a proven record of successful peer reviewed grants and publications and a record of mentorship with junior faculty and fellows to further the research mission of the Division. The role of the endowed chair will be to foster excellence within the broader academic and community health network through advocacy and provide leadership in research and innovation in clinical care and enhance McMaster Children’s Hospital as a Centre of Excellence in the care of the newborn.

The Division of Neonatology is an important service within McMaster Children’s Hospital (MCH), the pediatric regional referral centre for a population of more than 2.5 million in south central Ontario. The Neonatal wards include a 47-bed NICU as one of the largest level III units in the country as well as a 14 bed level II unit, with a multidisciplinary team providing comprehensive patient care. There are more than 1500 newborn admissions per year including more than 200 VLBW infants. The full spectrum of admissions include all types of congenital malformations and non-cardiac post-surgical care.

Applicants should be certified (or eligible for certification) by the Royal College of Physicians and Surgeons of Canada in Pediatrics and must be licensed (or eligible for licensure) in the Province of Ontario. Academic rank will be commensurate with training and experience.

All qualified applicants are encouraged to apply; however, Canadian citizens and permanent residents will be considered first for this position. To comply with the Government of Canada’s reporting requirements, the University is obliged to gather information about applicants’ status as either Permanent Residents of Canada or Canadian citizens. Applicants need not identify their country of origin or current citizenship; however, all applications must include one of the following statements: Yes, I am a citizen or permanent resident of Canada - or - No, I am not a citizen or permanent resident of Canada.

Review of applications will begin on September 26, 2017 and continue until the position is filled.

Interested candidates should submit a curriculum vitae and letter of interest via email to:
