The Ontario Child Health Support Unit
Resources for child health researchers

Canada’s Strategy for Patient-Oriented Research (SPOR) is about ensuring that the right patient receives the right intervention at the right time. The Ontario Child Health Support Unit, a research centre within the Ontario SPOR Support Unit, provides research consulting and services to investigators who wish to address important questions on the health and well-being of Ontario’s children.

This session will provide an overview of OCHSU, resources available to researchers, and lessons learned from a recent OCHSU symposium focused on patient engagement in child health research.

Presented by:
Dr. Stephanie Atkinson
Professor, Department of Pediatrics
and Site Lead OCHSU

Lindsay Akrong
Research Services Specialist,
Department of Pediatrics

Drs. Nikhil Pai & Amit Mukerji
Assistant Professors,
Department of Pediatrics

All faculty, research staff, allied health staff, and trainees are welcome to attend.
*These are interactive sessions - we want to hear your feedback, questions and great ideas!*
